Product tracking:

According to law we have established a product tracking system with the cooperation of the Azienda per i servizi Sanitari del Trentino: Nucleo Operativo Veterinario, Via Lavisotto, 125 Trento. Every product has a label with its production code and expiration date. The production code and expiration date are also printed in the transportation document. The research of a production code provides immediate information about the produced and sold quantities of the items and about the customers who bought those products. The system is clearly connected to all the production means, going back to the raw material and the packaging.
