PRESERVATION METHODS: In refrigerator at +1/+4°C

MINIMUM SHELF LIFE FROM THE PRODU: 60 days.

PRODUCT TRACKING: Every product has a label with its batch code and expiration date. The production code and expiration date are also printed in the transportation document. A batch code provides immediate information about the specific product and quality produced and sold and about the customers who bought such product. The tracking system applies to the entire manufacturing process, including the raw materials and the packaging.
